ABOUT ME

Always eager to learn new things. Looking forward to have new experiences. Enthusiastic to solve problems and overcome challenges. Love travelling , reading books and watching movies. Always ready to enjoy the life.

EDUCATION

BSc in Software Engineering

Islamic University of Technology

Year 2021 - current

- CGPA 3.73 out of 4.00
- Expected Graduation: September 2025

WORK EXPERIENCE

Streams Tech

June 2024 - October 2024

Intern Developer

I contributed to a **fintech** solution product, used by the main stakeholder Spendplan, a USA-based company. I utilized **ASP.NET** Framework, **Redis**, and **PostgreSQL** in the development process. My contributions included:

Backend Caching Layer Implementation

- Contributed to a major update by developing and enhancing features, including a cache layer database to improve data retrieval, optimize server performance, and adapt backend logic to meet evolving product requirements.

Robust Testing Suite Development

- Developed a robust testing suite to improve code reliability and ensure stable software performance.
- Wrote unit and integration tests, specifically focusing on server-side functionality to catch edge cases and bugs early in the development process.
- Integrated automated testing into the CI/CD pipeline via a GitHub Actions workflow, significantly boosting testing efficiency.

Code Refactoring and Debugging

- Refactored and debugged server-side functionality to optimize performance and maintainability.
- Applied clean code principles and design patterns, ensuring code readability, scalability, and long-term sustainability.

Logicri

March 2025 - June 2025

Intern Developer

At Logicri, a Bangladeshi startup, I contributed to building and maintaining live client software solutions. I worked across the full stack using **Nest.js**, **Next.js**, **TypeScript**, **Node.js**, and **Express.js**.

- Contributed to full-stack development and maintenance of live client-facing solutions, including a production-grade **ERP** system, ensuring rapid and reliable delivery.
- Focused on scalable design, clean architecture, and efficient API development.

SKILLS

Programming

C, C++, C#, JavaScript, Java, Python, SQL

Development Backend

JavaScript, PHP, NodeJS

Development frontend

ejs, HTML, ReactJS, AngularJs

Database

Oracle, MongoDB, Graph Database NEO4j, MySQL, Redis, PostgreSql

DevOps

Microsoft Azure

Tools, Libraries and Frameworks

Git, OpenCV, JUnit, Jest, Asp .Net, Spring Boot, NextJS

Problem Solving

Solved coding problems on [Codeforces](#) and [Leetcode](#)

AI & ML

Ollama, LangChain

Others

Jira, Trello, Github Actions

PROJECTS

Expense Management

C#, Asp .Net Core, Entity Framework, AngularJs, PostgreSql

[Github Link](#)

Streams Tech Ltd

- Comprehensive expense management platform with role-based authentication and authorization for enhanced security and control
- Advanced expense tracking and management tools with robust search and filtering options

InternConnect

MongoDB, ExpressJS, ReactJS, NodeJs, netlify

Islamic University of Technology

[Project Link](#) [Github Link](#)

- A Web Application streamlining the Internship Management System simplifying application processes and placements for students at IUT.

DeaLIT

MongoDB, ExpressJS, ReactJS, NodeJ

Islamic University of Technology

[Github Link](#)

- E-commerce platform offering advanced features for product exchange, renting, and trading opportunities
- Integrated chat feature for enhanced user interaction

Class Booking System

PHP, HTML, CSS, MySQL

Islamic University of Technology

[Github Link](#)

- Web-based Classroom Booking System simplifying scheduling, locating available classrooms, and allocating spaces for classes and quizzes.

Image Filter

C#, .Net, OpenCV

Self-study and skill enhancement.

[Github Link](#)

- Image filtering program for Windows offering rotation, flipping, brightness, contrast adjustments, and artistic effects like negative, greyscale, posterization, and alpha effects
- Face detection feature within images
